### Course Overview

In this increasingly competitive world, customers are in a position to demand forever increasing levels of service and quality. Rather than simply react to their demands, successful companies are proactive in the way they manage quality and continuously seek to improve levels of customer satisfaction.

This programme studies Customer Service and Quality Management in order to help delegates systematically enhance and improve the levels of Customer Satisfaction they deliver in their organizations.

### Course Objective

- Describe how to use Quality Management tools and methods
- Build strong customer relationships
- Help influence and set customer expectations
- Measure their own degree of customer focus and be able to apply a variety of methods to get closer to the customer
- Implement improved people skills to enhance customer service
- Improve service to internal customers as well as external customers
- Use skills to build effective relationships

### Who Should Attend?

The programme is suitable for business professionals in customer facing positions or with specific responsibilities for Service Quality and Customer Satisfaction. It will be especially valuable to those in specific customer service roles.

The programme will be of great benefit to people new to the role, as well as more experienced officers seeking to examine and enhance their service quality and customer satisfaction skills.
