Introduction

Striving for safety excellence has to be every safety professional's endeavor and aspiration. This "must attend" advanced course will provide you with powerful tools that with effort will enable you to make an expeditious and comprehensive difference to your workplace's safety culture on returning to the organisation.

A combination of advanced 'out-of-the-box' thinking, new human applications and psychology will transform how you view and approach your future safety climate assignments. If you are committed to safety excellence and you wish to be a world class agent for safety leadership then this Advanced Course is for you!

This course will feature:

- Safety Excellence, the ultimate (practically achievable?) objective to Zero
- Transactional, Transformational, Felt, Values-based Leadership
- Going beyond Behaviour-Based Safety (BBS)
- Organisational and Environmental Risk, Threats and Impact Perspectives
- Advanced Accident Investigations & Reporting
- Actions, Beliefs & Consequences (ABC) - Safety Management Systems (SMS)
- Plan, Do, Check, Act (PDCA) cycle for continual improvement

Objectives

By the end of this course, participants will be able to:

- Apply new leadership traits that can and will make the difference
- Understand Unsafe Acts v. Unsafe Conditions, so avoiding the 'Blame Game'
- Understand new and effective motivational and engagement techniques
- Develop your safety culture to spread as a person to person 'virus' under three interrelated aspects:
 - Psychological
 - Behavioural
 - Situational
- Enhance your Safety and Risk Management leadership skills

Training Methodology

This Advanced course will utilise a variety of proven highly interactive adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes syndicate and individual exercises, relevant DVD and case studies and role-play exercises. A comprehensive hard and e-version of the course manual including copies of all slides, handouts and checklists will be provided.

Organizational Impact

This Advanced course will provide solutions for the whole workforce to adopt the latest systematic approaches in achieving the potentially achievable target of Zero.

- New psychological strategies for reducing Human Error
- Building a safer organisation considering all the behavioural causation factors
- Providing a clearer understanding of how, why and what went wrong
- Identify potential deficiencies in your Major Hazards Risk programme
- Pragmatic solutions to improve your SMS

Personal Impact

Attendance at this Advanced course will enable Safety professionals to return to the organisation equipped with boldness, self-belief and a renewed confidence eager to engage and communicate.

- Learn how to direct your efforts to align safety with the business agenda
- How to motivate your workforce to join you on a journey to Zero
- How to ensure your colleagues go from “have to” to “want to”
- Learn new approaches for behaviour, trust, mindfulness, values and leadership
- How to share the dedication to focus on zero (safety excellence) as the goal

Who Should Attend?

This Advanced Course is ideal to a wide range of professionals but will greatly benefit those persons responsible for leading safety within an organisation at a global, regional or local level. Directors, Departmental heads, HSE managers and advisors. Those seeking new concepts in aiming for zero exposure to workplace accidents, incidents, illness and injuries. And others interested in developing safety leadership skills from tomorrow's best practices.

SEMINAR OUTLINE

DAY 1

Accident & Incident Causation Factors

- The Analysis of Accidents – Looking at the Facts, Figures & Costs
